- Offsite/college internships:
 - You can do it from your college
 - Not paid, but credits are given for your full time position interviews
 - 10 hours per week is mandatory
 - 1 PR per month is mandatory

OpenEBS Internships Criteria

- Anyone who is enthusiastic about programming and open source development is eligible.
- BE/B.Tech/MCA All branches, All semesters are eligible for college internships
- Only final semester students of BE/BTech/MCA are eligible for onsite internships
- Onsite internship is at :
CloudByte/MayaData/OpenEBS office in
Bangalore

OpenEBS Internships process

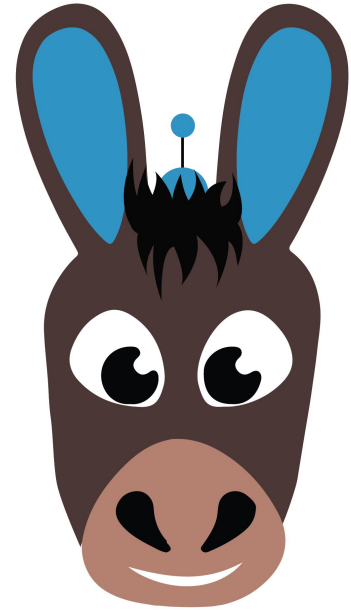

- OpenEBS team comes to college for a seminar on Open source Development, Kubernetes and OpenEBS
- Students need to register for the seminar before the seminar starts
- A staff member is designated to conduct the internship entrance tests in college
- 10 offsite / college internships are guaranteed per college if the college give an undertaking that the intern spend 10 hours a week on OpenEBS development

Next steps

- College agrees to subscribe to this program and invites the company to college
- Company accepts and opens up the seminar enrollment form with a single point of contact for co-ordination
- Company conducts the seminar at college, gives the question papers for entrance test to the staff member.
- After receiving the recommendation from college, the offsite internship program will start at a stipulated time within 30 days from seminar
